In order to clarify the guidelines of the event, and with the aim of establishing the operating rules that will allow all participants to enjoy a great event, we share the following Terms and Conditions:

In a nutshell:

The participant, as an independent athlete, is responsible for their canyoning activity.

Canyoning

Group integration:

Participants are free to form groups with whomever they want to go canyoning with, if all the participants involved agree and registered for the Meeting.

We will endeavour not to have too many participants in each canyon each day, with the aim of providing progressions that the participants enjoy and avoiding massification.

Although the aim is to encourage socialising and healthy coexistence between the different groups of participants, each participant will be responsible for their own descent and technical equipment.

Timetables:

The organisation will publish timetables for logistics according to the location of each canyon, as well as the location and estimated time of the route, to promote safe conditions during the event. Participants must not start canyoning after the time limit indicated by the organisation.

Monitoring:

The organisation collects data on canyon descents to ensure that groups carry out their descents in an organised manner, avoiding massification, and with the aim of monitoring participants. For this reason, participants must notify the Secretariat of the start of the descent and the exit from the canyon to the WhatsApp number provided, or in person at the Secretariat.

Transport:

The organisation will provide transport to the canyons for those participants who need it. We will try to optimise resources to transport as many canyoners as possible in reasonable timeframes and, to this end, transfers will be made along set routes and at set times. Every effort will be made to ensure that waiting times are as short as possible; however, we ask for the understanding of the participants to comply with the timetables set by the Organisation.

If you want to take your car to the canyoning, you can be supported by a combination of vehicles as far as possible.

Risks inherent in the activity:

The participant recognises and accepts that he/she is aware of the risks inherent in this type of event, and therefore participates in the MCM of his/her own free will and initiative, assuming the organisation cannot be held responsible for any damage, harm or injury that may result from participation in this MCM due to negligence on the part of the participant.

Insurance:

The participant must have personal accident insurance, which must be provided to the organisation at the latest at the time of registration at the start of the event; if they do not have it, the MCM organisation will provide the facilities for the participant to take out such insurance. The participant, as an independent athlete, is responsible for having the technical canyoning equipment in good condition and is solely responsible for their personal or collective protection equipment.

Anchorage:

The MCM organisers have taken care to ensure that the canyoning facilities are suitable for sporting descents, however, it is the participant's responsibility to supervise the facilities they are descending, and this is their responsibility and not that of the event organisers or other participants.

In the event of the event being cancelled for unforeseen reasons or reasons beyond the control of the organisers, participants will be informed as soon as possible.
